Conference Convener
Dr Sanjay Mittal
Senior Director Cardiology
Medanta Heart Institute

Scientific Convener
Dr Manish Bansal
Associate Director Cardiology
Medanta Heart Institute
Dear Colleague,

I am immensely pleased to invite you to the 9th Edition of our “Best of Cardiology” series: Medanta Echo n Cardiology: Today & Tomorrow, April 18th-19th, 2020

You have blessed me in the past with your gracious presence, presentation of new science and active participation in the deliberations. I hope you will continue to do this in the forthcoming conference as well. This meeting of minds has now become a national phenomenon with your presence and participation.

In this complex 21st century landscape that we live in, cardiovascular curriculum, cardiovascular diagnosis and cardiovascular treatment have all become complex with multiple complimentary or competing diagnostics and therapeutic modalities being available for any given cardiac condition. Hence, the theme of this year’s meeting is “Unraveling the Complex Clinical Cardiovascular Conundrum”

This two days’ meeting will bring to the fore the best of clinical and preventive cardiology, echocardiography, digital platforms in cardiology and interventional techniques, while not forgetting cardiovascular pharmacotherapy and allied sub-specialties. This hopefully will help us become better caregivers in this rapidly changing 21st century landscape. We will also highlight scientific work done by young investigators and felicitate the best with the Award of “Rising Star of Cardiology”

My team and I therefore look forwards to welcoming you to the 9th edition of our “Best of Cardiology series”, in the serene setting of the ‘Hotel Leela Ambience’, in the heart of Gurugram.

A special session on the ‘Art and Science of Meditation’ is also planned with Parmarth Niketan, Rishikesh.

Conference Chairman
Dr Ravi R. Kasliwal
