

DEEP BRAIN STIMULATION IN OBSESSIVE COMPULSIVE DISORDER

Dr. Naresh Trehan
Chairman and Managing Director
Medanta

Dr. V. P. Singh
Chairman
Institute of Neurosciences

Dr. Saurabh Mehrotra
Associate Director - Mental Health
Institute of Neurosciences

Dr. Anirban Deep Banerjee
Associate Director - Neurosurgery
Institute of Neurosciences

Wednesday, 11th October, 2023 | 02:30 PM - 04:15 PM | Venue: 2nd Floor, Auditorium

Welcome Note	Dr. Saurabh Mehrotra , Associate Director - Mental Health
Address by	Dr. V. P. Singh , Chairman - Institute of Neurosciences
Address by Chief Guest	Dr. Naresh Trehan , Chairman and Managing Director, Medanta
Symptoms of OCD	Dr. Prathyusha Manchala , Attending Consultant - Psychiatry
Medical Treatment in OCD	Dr. Anmol Singh , Attending Consultant - Psychiatry
Behavioural Treatment/ Counselling in OCD	Ms. Tanvi Baluja , Clinical Psychologist - Mental Health
Treatment Resistant OCD	Dr. Saurabh Mehrotra , Associate Director - Mental Health
DBS in OCD	Dr. Anirban Deep Banerjee , Associate Director - Neurosurgery
Medico-Legal Aspects of DBS in OCD	Dr. Saurabh Mehrotra , Associate Director - Mental Health

Talk will be followed by **High Tea**

Do you frequently experience distressing ideas such as:

- Excessive concern with contamination?
- Repetitive urge to wash hands even while knowing they're not dirty?
- Frequent excessive checking of items like locks and stoves for reassurance?
- Fear of blurting out obscenities?
- Unwanted sexual thoughts or images?
- Preoccupation with arranging things in order, symmetry and counting?

If you do so at a level that causes impairment of everyday functioning, then you could possibly have obsessive-compulsive disorder.

Is there a cure for this distressing condition?

Fortunately, we have various treatment options like medication and behavioural therapy.

But if all else fails, one can go for a surgical procedure called deep brain stimulation. It is a procedure where specific areas of the brain are selectively stimulated for symptom abatement.

To learn more about DBS, attend the **talk** by **experts**.
